

PMO (m/w/d) Aerospace and Defence

Workplace: 82024, Manching

[Apply online!](#)

What to expect:

- You establish and optimize predictive project management
- As a project coach, you advise and support the project managers with your technical expertise
- Proactively and continuously optimize processes, PM methods and tools to improve work results
- You actively contribute your project management knowledge to PMO-relevant projects and work together with the project manager to ensure the success of the project
- You ensure well-founded project setups, monitor PMO-relevant projects and, if necessary, support their project management in the implementation of decisions/measures and establish consistent opportunity and risk management

What you bring along:

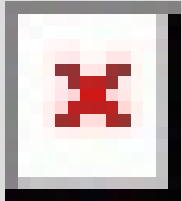

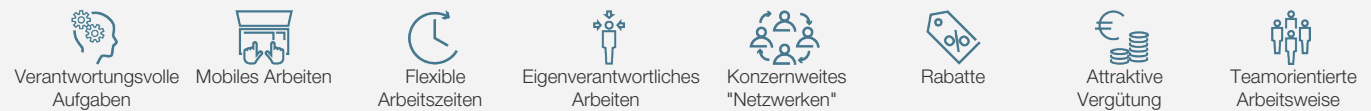

- Successfully completed studies (business informatics, computer science, electrical engineering, natural sciences) or comparable training
- Several years of practical experience in project management (ideally in the defense industry)
- Ideally PM certification (e.g. IPMA Level C/D or Scrum Master)
- Ideally experience in dealing with common agile and classic project management methods and tools (Jira, Confluence, etc.)
- Ideally basic commercial knowledge
- Strong communication skills and assertiveness
Committed and independent way of working
- Organizational skills and ability to work in a team
- Very good knowledge of German and English

Place of work: Taufkirchen near Munich, Manching, Donauwörth, Ulm (hybrid), for current project presence in Ulm required approx. once a week.

We are Bertrandt.

An independent and international engineering service provider with many years of automotive expertise. With cross-industry know-how and a holistic understanding of systems and products, we create technological solutions along the entire value chain. We deal with the trending topics of digitalization, e-mobility and autonomous systems, primarily for the automotive, aviation and mechanical engineering sectors, and consistently enable the development of tailor-made solutions. Our goal is to accelerate technological progress and make a relevant contribution to a sustainable future. We work on this every day - with over 14,000 employees at around 50 locations worldwide.
