

Junior Project Manager Homologation with German

Workplace: 550025, Sibiu

Apply online!

What to expect:

In order to put a new vehicle on the road, many regulations must be observed. We advise our customers on how to harmonize technology and legal regulations. You too can contribute to this and support us in the following activities:

- You obtain and check information and technical vehicle documents, maintain and track the necessary data and create the documents for the vehicle type approval documents and data records
- You are independently responsible for sub-scopes of current projects
- They help to ensure that project goals are met and track compliance with milestones
- You ensure that the necessary registration documents are submitted on time
- You take part in project meetings, present and coordinate work results in regular meetings

What you bring along:

- You have a technical or commercial degree or have completed a completed technical vehicle training
- You enjoy vehicle technology, project management and communication
- You have already gained initial professional experience in the automotive industry
- You impress us with your confident demeanor and communication skills
- You have good German and very good written and spoken English skills
- You are not afraid to coordinate with the customer, can inspire others with your ideas, work in a structured manner, are a team player and can also work on tasks independently
