

# Web Developer Senior

**Lugar de trabajo:** 28906, Getafe

**¡Aplica online!**

## What to expect:

We are looking for three engineers to join our team to get involved in projects related to web development. The selected people will be able to work from our facilities in Getafe (Madrid), Seville or Vigo.

### General Responsibilities:

- Actively participate in the requirements phase and testing phase of the project.
- Execute complex development tasks with efficiency and quality.
- Collaborate with the entire team in the development and maintenance of technical documentation.
- Bring curiosity and originality, as well as express your opinion and initiative in the work processes.
- Possess a good knowledge of the customer requirements gathering process.
- Handle development tools such as GitLab, SVN, Redmine and Docker.

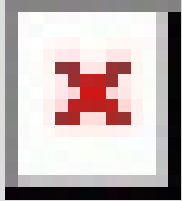

## Requisitos:

- Teamwork and interpersonal skills.
- Ability to find creative solutions to complex problems.
- Good verbal and written communication skills.
- Detail-oriented and analytical thinker.
- Ability to identify, evaluate and advise on technology project risks.
- At least 5 years of experience in development tasks.
- At least 2 years of experience in requirements gathering and design of SW solutions (Multiplatform Aps.)
- At least 5+ years of experience in at least two of the following programming languages: Java, Python or C++ for the backend, and Qt, Angular or React for the frontend.

## We are Bertrandt.

An independent and international development service provider with long years of automotive expertise. With cross-

industry know-how and a holistic understanding of systems and products, we create technological solutions at any stage of the product development process. We deal with a focus on hot topics such as digitalization, e-mobility and autonomous systems, mainly for the automotive, aerospace and mechanical engineering sectors, and consistently facilitate the development of tailored solutions in these areas. Our goal: to accelerate technological progress and make a relevant contribution to a sustainable future. We work on this every day - with around 14,000 employees at more than 50 sites worldwide.
