

SAS System Architect (m/w/d)

Arbeitsort: 76187, Karlsruhe

Jetzt online bewerben!

Was Sie erwartet:

- Design and develop standard solutions for Substation Automation Systems (SAS) that deliver secure, scalable architectures aligned with customer requirements and compliant with industry standards
- Create project-specific solutions and architectures in close collaboration with bid management and sales teams
- Prepare detailed technical descriptions and compile the Bill of Materials (BoM) for SAS solutions
- Manage stakeholders and provide technical support to sales, bid management, and engineering teams
- Conduct training sessions for internal departments such as sales, bid management, and project execution
- Translate functional requirements into Epics, Features, and high-level acceptance criteria for agile implementation

Was Sie mitbringen:

- Successfully completed university degree in Electrical Engineering or a related technical field
- At least 5 years of experience as a Solution Architect, System Architect, Project Manager, or similar role in the substation business
- Strong knowledge of electrical engineering principles, standards, and codes
- In-depth understanding of substation system design, from secondary equipment to SCADA and HMI
- Expertise in substation secondary equipment technologies (e.g., protection relays, power metering)
- Familiarity with leading market products and solutions (e.g., Siemens SIPROTEC, ABB, Schneider)
- Experience in project execution or project management of substation solutions
- Excellent communication and interpersonal skills, with the ability to engage customers at eye level
- Strong analytical and problem-solving skills combined with a structured and collaborative approach
- Fluent in English; German is desirable

As part of an employee leasing arrangement for a renowned client, we are looking for a dedicated **SAS System Architect (m/w/d)**.

Passionate about technology, teamwork, and genuine appreciation? Then let's take off together!

Schwerbehinderte Menschen beziehungsweise gleichgestellte Menschen im Sinne des SGB IX werden bei gleicher Eignung bevorzugt eingestellt.
