

Project Leader SW Development

Workplace: 418 32, Gothenburg

[Apply online!](#)

What to expect:

- Operate and facilitate Operational Excellence meetings, enabling quality-focused discussions and ensuring alignment with unit-wide quality goals.
- Further develop ConX Ways of Working (WoW) and drive key improvement initiatives across the organization.
- Promote effective collaboration across teams to support successful and timely delivery.
- Lead project management activities for tool chain migration in R&D IS/IT, including scoping, planning, progress coordination, and status reporting.
- Ensure that migration activities support efficient, scalable, and high-quality software development workflows.

What you bring along:

- Minimum 10 years of experience in software development and/or IS/IT systems deployment.
- Bachelor's degree or higher in Electrical Engineering, IT/Data, Computer Science, or a related field.
- At least 5 years of experience in the automotive industry.
- Preferably experience with software architecture modelling work.
- Extensive experience in in-house product development.
- Strong background in software development processes, including quality assurance for both in-house and third-party software.
- Proven track record in large-scale development programs involving software, hardware, and mechatronics.
- Skilled at engaging and collaborating with a wide range of stakeholders.
- Solid experience in project management with the ability to drive clarity and structure.
- Strong relationship-building skills and the ability to establish trust quickly.
- Confident and effective communicator and presenter.
- Good understanding of cloud technologies, telematics, mobile applications, and embedded

development.

- Comprehensive knowledge of the full in-house software development lifecycle, from concept to deployment, including quality assurance.
- Advanced English skills
