

## Automotive Test Engineer - Infotainment / Connected Experience

**Workplace:** 418 32, Gothenburg

[Apply online!](#)

### What to expect:

- Test and validate Infotainment, HMI & UX systems in automotive environments
- Perform scenario-based, system and exploratory testing
- Execute and analyze test cases on vehicle and system level
- Work with test automation (Python-based frameworks) where applicable
- Analyze logs and faults using automotive testing tools
- Collaborate closely with cross-functional engineering and test teams

### What you bring along:

- Experience or strong interest in Automotive Testing / Infotainment systems
- Knowledge of HMI, UX or in-vehicle systems is a strong advantage
- Test automation experience (Python, Pytest, Robot Framework) is a plus
- Familiarity with tools such as CANoe, DLT, Wireshark is an advantage
- ISTQB or automotive testing knowledge is beneficial
- Fluent English and Swedish
- Valid work permit for Sweden
- Valid B driving license (mandatory)
- Motivation, teamwork skills and willingness to learn

### About the role:

You will be part of a growing Connected Experience Test-house (In car regression testing, test creation for SPA3, Execution, maintenance & result analysis of existing automated regression, Base-tech testing, DVI Manual testing, Radio Manual Testing), supporting a large automotive OEM from Sweden in the testing and validation of Infotainment and connected vehicle systems.

Both experienced testers and junior profiles are welcome.

The role combines hands-on testing, collaboration across disciplines and continuous learning in an international automotive environment.

With more than **54 locations throughout Europe**, the **Bertrandt Group** has been providing **engineering and development solutions** for the international automotive and aerospace industries since **1974**. More than **12,000 employees** use their **know-how** and **innovative strength** every day to support our customers – **leading manufacturers and OEMs** – with integrated solutions in **management, design, and industrialization**.

Bertrandt is now expanding into Sweden, establishing a **strong and future-oriented presence in Gothenburg**. Our activities cover a spectrum of expertise from **electrical, electronics**, and **software development** to **design engineering, project management, quality, industrialization, and validation**, all driven by **innovation** and a **passion for technology**.
