

# Full Stack Developer

**Workplace:** 418 32, Gothenburg

[Apply online!](#)

## What to expect:

- Develop, maintain, and support web-based applications and services used for material and substance data management.
- Work in a cross-functional product team delivering new features, improvements, and application support.
- Contribute to system design, architecture discussions, and technical decision-making.
- Analyze technical, infrastructure, and process challenges related to material data and propose effective solutions.
- Collaborate with engineers, architects, and stakeholders to ensure high-quality, sustainable software solutions.
- Participate in continuous improvement, code reviews, and recruitment activities as the team grows.
- Promote a supportive, psychologically safe, and collaborative team culture.

## What you bring along:

- Strong experience with .NET/C# and willingness to learn Java for legacy systems.
- Proficiency in TypeScript, React, and SQL databases.
- Experience with Docker and containerized development.
- Ability to design and consume GraphQL and REST APIs.
- Experience designing systems using Azure cloud services.
- Proficiency with GitHub, version control, and collaborative development workflows.
- Experience with CI/CD pipelines and deployment automation.
- Strong English communication skills (spoken and written).

## Good to Have

- Experience with Python.
- Knowledge of graph databases (e.g., Neo4J).
- Familiarity with PostgreSQL.
- Experience with Infrastructure as Code (Bicep).
- Understanding of monolith or modular architecture principles.
- Exposure to AI/ML concepts or applications.

With more than 54 locations throughout Europe, the Bertrandt Group has been providing engineering and development solutions for the international automotive and aerospace industries since 1974. More than 12,000 employees use their know-how and innovative strength every day to support our customers – leading manufacturers and OEMs – with integrated solutions in management, design, and industrialization.

Bertrandt is now expanding into Sweden, establishing a strong and future-oriented presence in Gothenburg.

Our activities cover a spectrum of expertise from electrical, electronics, and software development to design engineering, project management, quality, industrialization, and validation, all driven by innovation and a passion for technology.

**Gothenburg location and candidates must hold valid work authorization in Sweden.**
