- Experience with cloud platforms and backend architectures
- Understanding of software development lifecycles
- Structured and solution-oriented mindset
- Ability to work in cross-functional teams
- Fluent in English and Swedish
- Valid work permit for Sweden

About the role

As a Cloud & Backend Software Engineer, you will work with backend and cloud-based solutions supporting automotive software systems, data flows, and services.

This is a general role intended to cover various backend and cloud engineering needs within automotive projects.

With more than **54 locations throughout Europe**, the **Bertrandt Group** has been providing **engineering and development solutions** for the **international automotive and aerospace industries** since **1974**. More than **12,000 employees** use their **know-how** and **innovative strength** every day to support our customers – **leading manufacturers and OEMs** – with integrated solutions in **management, design, and industrialization**.

Bertrandt is now expanding into Sweden, establishing a **strong and future-oriented presence in Gothenburg**. Our activities cover a spectrum of expertise from **electrical, electronics**, and **software development** to **design engineering, project management, quality, industrialization**, and **validation**, all driven by **innovation** and a **passion for technology**.

What we offer:

Flexible working hours

Training programs

Employee events

Attractive compensation

Team-oriented work
