

Project Manager

Workplace: 28906, Getafe

[Apply online!](#)

What to expect:

Bertrandt Technology, a leading company specializing in software development and engineering solutions for industries such as automotive, aerospace, and defense, is seeking a Project Manager to join our growing team.

As a Project Manager within our Project Management Office (PMO), you will play a critical role in ensuring the success of our high-impact projects. You will be responsible for driving project execution, overseeing multiple project teams, and providing strategic direction in key areas such as project monitoring, financial control, and risk management. Your expertise will contribute to the success of our projects in industries with stringent quality and safety standards.

Key Responsibilities:

- **Project Monitoring and Control:** Lead the monitoring of project timelines, scope, and costs to ensure on-time delivery within budget.
- **Cross-functional Collaboration:** Coordinate and manage cross-functional teams, ensuring effective communication and collaboration among all stakeholders.
- **Data Analysis and Reporting:** Oversee the generation and interpretation of KPIs, as well as the creation of

What you bring along:

- **Academic Background:** Bachelor's or Master's degree in Engineering, with extensive experience in project management.
- **Language Skills:** Advanced proficiency in English (C1) is required. A good level of German will be highly valued.
- **Technical Proficiency:** Strong knowledge of project management tools such as Excel, SAP. Familiarity with Agile principles and the SCRUM framework will be considered a plus.
- **Leadership Skills:** Demonstrated ability to lead teams, manage stakeholders, and drive projects to successful completion.

What We Offer:

- Competitive salary and benefits package, based on the seniority of the role.
- Flexible working hours.
- A dynamic, multidisciplinary work environment with continuous learning opportunities.
- The chance to lead projects in cutting-edge industries and grow your career within a solid and innovative company.

comprehensive project reports for senior management.

- Financial and Risk Management: Ensure the financial viability of projects through detailed financial oversight and risk management strategies.
- Documentation and Team Leadership: Manage the creation of functional documentation and lead engineering teams to achieve project goals.

We are Bertrandt.

An independent and international development service provider with long years of automotive expertise. With cross-industry know-how and a holistic understanding of systems and products, we create technological solutions at any stage of the product development process. We deal with a focus on hot topics such as digitalization, e-mobility and autonomous systems, mainly for the automotive, aerospace and mechanical engineering sectors, and consistently facilitate the development of tailored solutions in these areas. Our goal: to accelerate technological progress and make a relevant contribution to a sustainable future. We work on this every day - with around 14,000 employees at more than 50 sites worldwide.

What we offer:

Responsible Tasks

Flexible working hours

Training on-the Job

Team-oriented work

Unlimited employment contract
