

## Resident Engineer – Body Exterior

**Workplace:** CW1 3PL, Crewe

**Apply online!**

### What to expect:

Bertrandt is an independent and international development service provider with long years of automotive expertise. With cross-industry know-how and a holistic understanding of systems and products, we create technological solutions at any stage of the product development process. We deal with a focus on hot topics such as digitalization, e-mobility and autonomous systems, mainly for the automotive, aerospace and mechanical engineering sectors, and consistently facilitate the development of tailored solutions in these areas. Our goal: to accelerate technological progress and make a relevant contribution to a sustainable future. We work on this every day – with around 14,000 employees at more than 50 sites worldwide.

We are recruiting for an experienced automotive engineer to work with our OEM customer on their site as a body exterior engineer. The role involves project management - interfacing with design, manufacturing, purchasing and other technical departments at the customer and interfacing with Bertrandt development teams.

We are supporting various customers worldwide. We are recruiting for a Resident Engineer – Body Exterior

### What you bring along:
