

Test Automation Engineer - HiL Testing

Workplace: 10000, Rabat

Apply online!

What to expect:

- We are looking for an experienced **EXAM Test Automation Engineer** to support an automotive development project, focusing on the **implementation and automation of test cases on Hardware-in-the-Loop (HiL) systems**. The role is suited for **Intermediate to Senior level engineers** with strong experience in test automation :
- Implement and automate **test cases using EXAM**
- Execute and integrate automated tests on **HiL systems**
- Collaborate with development and testing teams to define and implement test strategies
- Analyze test results and support **root cause analysis and debugging**
- Maintain and further develop the existing **test automation framework**
- Document test cases, test executions, and results

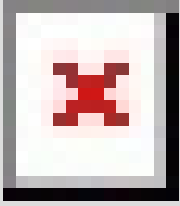

What you bring along:

- Several years of experience in **test automation in the automotive domain**
- Degree in Engineering, Automotive Systems, or related field
- Solid experience with **EXAM test automation**
- **Intermediate to Senior level** professional experience
- Experience working with **Hardware-in-the-Loop (HiL) testing environments**
- Structured and analytical working style with strong collaboration skills
- Good **English communication skills** (German is a plus)

With more than 50 facilities in Europe, the Bertrandt Group has been providing development solutions for the international automotive and aircraft industry since 1974. Every day, more than 13 000 employees guarantee extensive know - how and support our client (Manufacturer and OEM) with management, design and industrialization solutions.

Bertrandt Technologie Morocco offers you opportunities in the automotive sector (body in white, interior and exterior, layout, powertrain, and electronics). Moreover, we are also present in interdisciplinary field such as project management, quality management, supply chain/industrialization and validations
