

Subject Matter Expert (SME) - Animal Health Demand Forecasting (m/w/d)

Workplace: 55218, Ingelheim am Rhein

Apply online!

What to expect:

- In your new role, you will act as a key contributor during the scoping, and template build/pilot phases of the SAP IBP for Demand project
- Furthermore, you will contribute to the functional design of demand forecasting processes within SAP IBP for Demand
- You will collaborate with Global Business Services, Global Commercial Business, IT, Finance, and Supply Chain teams to ensure alignment of forecasting processes with strategic business needs
- Also, you will facilitate workshops, training sessions, and bootcamps to build capability across global and regional teams
- Expert input will be provided by you into training content, testing scenarios, and change management activities for global and regional stakeholders
- Finally, you will foster process adherence, and drive continuous improvement in areas like forecast monetization, reporting, and analytics capabilities

What you bring along:

- Bachelor's or Master's degree in Supply Chain Management, Business Analytics, Data Science, Statistics or related field
- Several years of experience in demand forecasting, with knowledge of SAP IBP for Demand or other forecasting tools (e.g. JDA, Kinaxis RapidResponse...)
- Experience working in cross-functional, global and local teams with strong stakeholder management skills
- Proven experience in process design, system implementation, and stakeholder engagement
- Strong analytical skills with proficiency in statistical modeling and forecasting algorithms (e.g., exponential smoothing, demand sensing, machine learning)
- Excellent communication and change management capabilities
- Fluent in English; German is a plus
