Lugar de trabajo: 08769, Castellví de Rosanes

[¡Aplica online!](#)

Would you like to work with the latest technology in the automotive sector?

Bertrandt AG España is an innovative German multinational company providing engineering solutions within the automotive industry, with more than 500 employees and a strong ambition to continue growing.

Teamwork is key to achieving excellence, which is why we work closely with our customers to deliver the best results. If you share our passion, we invite you to join our team. Are you ready to take the next step?

What to expect:

- Analysis of ePWT (electric Powertrain) trends across different markets and regions.
- Project management and coordination activities (planning, milestone tracking, scheduling, and reporting).
- Leadership and execution of benchmarking and technology research activities.
- Organization of events, test drives, and technology workshops related to ePowertrain.
- Vehicle evaluation and reporting of results derived from dynamic tests and benchmarking activities.
- Planning, preparation, measurement, analysis, and reporting of vehicle ePWT tests.
- Analysis and reporting of technology and market trends within the ePowertrain field.
- Preparation of presentations on European ePowertrain trends and their main components across different OEMs and suppliers.
- Investigation and monitoring of future European regulatory standards within the ePWT perimeter.
- Coordination of research activities with other testing and design areas.
- Alignment of activities with the NTCE-S calendar, with any exceptions agreed upon with TRV management.

Requirements:

- Degree in Industrial Engineering or equivalent qualification.
- Fluent English level (both written and spoken).
- Minimum of 4 years of experience in technical project coordination roles.
- Strong knowledge of the ePWT perimeter, its operation, and main components.
- Autonomous and proactive management skills, with the ability to implement improvement actions.
- Strong communication and management skills at all levels, both internal and external.
- High capability in planning, analysis, and technical reporting.
- Adaptability to fast-changing environments with strong attention to detail.
- Availability to travel occasionally to support project management activities.
- Valid driving license (minimum category B – Idiada).
- Proven experience in automotive engineering services.
- Advanced knowledge of Microsoft Office tools and experience in technical report and presentation preparation.
- Commitment to maintaining confidentiality of all documentation handled within the scope of the service.

What can we offer you?

- Permanent contract
- Flexible working hours
- Language training programs and continuous learning opportunities
- Flexible Compensation Plan (private health insurance, transport, etc.)
- 23 vacation days + December 24th and 31st
- Company events – we like to have fun!
- Positive, open and inclusive work environment
- Private parking

If you believe this is your role and would like to work in a dynamic environment focused on continuous learning. **¡Apply now - we're looking forward to meeting you!**

We are BERTRANDT. and you?

We're waiting for you!

At Bertrandt AG España, we are committed to creating a diverse and inclusive work environment. We believe in equal opportunities and consider all qualified candidates without discrimination based on gender, age, disability, sexual orientation, gender identity or expression, religion, ethnicity, marital status, or any other personal or social condition.
