

DUPLICATE: Automotive HMI Specifications Engineer

Workplace: 11100, Rabat

[Apply online!](#)

What to expect:

- Definition of user interface specifications for the instrument cluster.
- Analysis of the requirements defined by the different project stakeholders.
- Definition and specification of workflows and statecharts.
- Definition, specification, and functional documentation, if required.
- Collaboration with the design department, conceptualization team, and development team.
- Communication and follow-up with the different areas involved in the project (technical areas, function owners (FO), system owners, etc.).

What you bring along:

- Degree in Engineering (Multimedia / Electronics / Industrial / Computer Science / Telematics or similar).
- High level of English (B2).
- Low level of German (A1-A2).
- Proactivity, flexibility, organizational skills, and ability to work in a team.
- Knowledge/experience with Photoshop or Figma is a plus.

With more than 50 facilities in Europe, the Bertrandt Group has been providing development solutions for the international automotive and aircraft industry since 1974. Every day, more than 13 000 employees guarantee extensive know-how and support our client (Manufacturer and OEM) with management, design and industrialization solutions.
