

## Lead Engineer – Interior Area

**Workplace:** 418 32, Gothenburg

Apply online!

### What to expect:

- Take technical responsibility for an interior design area
- Coordinate and guide a team of Design Engineers within the area
- Perform hands-on design work in CATIA V5
- Ensure design quality, feasibility and compliance with requirements
- Support development through concept, design, validation and production phases
- Collaborate closely with project teams and stakeholders

### What you bring along:

- Senior Design Engineer background within Automotive Interior
- Experience leading or mentoring other engineers (formal or informal)
- Strong hands-on experience with CATIA V5
- Experience with Teamcenter and VPDS
- Solid understanding of plastic parts and interior components
- Good communication skills and a collaborative mindset
- Fluent in English
- This role requires **on-site collaboration** at our **Gothenburg** location and candidates **must hold valid work authorization in Sweden.**

### About the role

We are looking for a Lead Engineer – Interior Area to take technical responsibility for a defined interior design area. In this role, you will act as a technical lead, coordinating and supporting design engineers, while remaining actively involved in hands-on design work.

With more than **54 locations throughout Europe**, the **Bertrandt Group** has been providing **engineering and development solutions** for the international **automotive and aerospace industries** since **1974**. More than **12,000 employees** use their **know-how** and **innovative strength** every day to support our customers – **leading manufacturers and OEMs** – with integrated solutions in **management, design, and industrialization**.

**Bertrandt is now expanding into Sweden**, establishing a **strong and future-oriented presence in Gothenburg**. Our activities cover a **spectrum of expertise** from **electrical, electronics, and software development** to **design engineering , project management, quality, industrialization, and validation**, all driven by **innovation** and a **passion for technology**.

**What we offer:**

Flexible working hours

Training programs

Employee events

Attractive compensation

Team-oriented work
