

Functional Safety Engineer / Manager

Workplace: 418 32, Gothenburg

Apply online!

What to expect:

- Ensure **compliance with ISO 26262** across automotive EE projects
- **Coordinate, moderate and develop safety work products** throughout the lifecycle
- Conduct **safety analyses (HARA, FMEA, FMEDA, FTA)** and define safety requirements
- Support **concept, system, and HW/SW teams** to achieve safety goals
- Interface with **OEMs and suppliers** for safety documentation and validation
- Review test reports and **support audits and assessments**

What you bring along:

- Solid experience in **Automotive Functional Safety (ISO 26262)**
- Background in **Electronics, Mechatronics, or Systems Engineering**
- Knowledge of **requirements management tools** (DOORS, Polarion, etc.)
- Fluent in **English**
- **Detail-oriented**, analytical, with strong **communication and documentation** skills
- This role requires **on-site collaboration** at our **Gothenburg** location and candidates **must hold valid work authorization in Sweden.**

With more than **54 locations throughout Europe**, the **Bertrandt Group** has been providing **engineering and development solutions** for the international **automotive and aerospace industries** since **1974**. More than **12,000 employees** use their **know-how** and **innovative strength** every day to support our customers – **leading manufacturers and OEMs** – with integrated solutions in **management, design, and industrialization**.

Bertrandt is now expanding into Sweden, establishing a **strong and future-oriented presence in Gothenburg**. Our activities cover a **spectrum of expertise** from **electrical, electronics, and software development** to **design engineering, project management, quality, industrialization, and validation**, all driven by **innovation** and a **passion for technology**.

What we offer:

Flexible working hours

Training programs

Employee events

Attractive compensation

Team-oriented work
