

Group Design Leader - Interior Systems

Workplace: 418 32, Gothenburg

Apply online!

What to expect:

- Support design and development of interior systems, including trunk and luggage compartment systems, headliner, carpet trim, and interior plastic/textile components
- Participate in product development activities throughout the full development lifecycle (from concept to SOP)
- Contribute to design reviews, documentation maturity, and technical follow-up
- Coordinate and support supplier activities in line with technical requirements and quality standards
- Support change management, validation, and release activities
- Ensure alignment between technical solutions, cost targets, timing, and manufacturing feasibility
- Collaborate with engineering, quality, manufacturing, and purchasing stakeholders

What you bring along:

- Degree in Mechanical Engineering, Design Engineering, Automotive Engineering, or similar
- Experience in automotive interior components, design engineering, or technical project support
- Understanding of product development processes (e.g. VPDS/DVP or similar OEM frameworks)
- Experience working with CAD tools (e.g. Catia V5) and PDM systems (e.g. Teamcenter)
- Experience working with suppliers (Full Service Supplier or Build-to-Print environments is a plus)
- Structured, analytical working style with good documentation skills
- Strong communication skills and ability to work in cross-functional teams
- Fluent in English, written and spoken
