

## CFD Simulation Engineer Automotive (m/f/d)

**Workplace:** 10000, Rabat

[Apply online!](#)

### What to expect:

- For our team, we are currently seeking enthusiastic support in the area of CFD simulation. As part of this role, you can expect the following tasks:
  - Application of CFD for the development of measures in the following subject areas (thermodynamics, acoustics, aerodynamics, etc.)
  - Close cooperation with the respective process partners (pre- and post-process)
  - Presentation of results achieved and coordination with the development partners/project management on further procedures
  - Assistance in improving the development process/method development

### What you bring along:

- Successfully completed master's degree in automotive engineering, mechanical engineering, aerospace engineering, physics or a comparable course of study with a focus on fluid mechanics
- Communication skills
- Business fluent in English
- High initiative and strong analytical abilities
- Ideally, experience in the automotive sector as well as in overall vehicle development
- Ideally initial professional experience in the areas of responsibility described

With more than 50 facilities in Europe, the Bertrandt Group has been providing development solutions for the international automotive and aircraft industry since 1974. Every day, more than 13 000 employees guarantee extensive know-how and support our client (Manufacturer and OEM) with management, design and industrialization solutions.

Bertrandt Technologie Morocco offers you opportunities in the automotive sector (body in white, interior and exterior, layout, powertrain, and electronics). Moreover, we are also present in interdisciplinary field such as project management, quality management, supply chain/industrialization and validations.
