

## HiL Test Engineer - Automotive

**Workplace:** 100001, Rabat

[Apply online!](#)

### What to expect:

- We are looking for motivated HiL Test Engineers to support our electronics development team in the automotive sector and help shape the mobility of the future.  
Your responsibilities will include:
- Analyzing system requirements and deriving detailed test specifications.
- Automating and executing test cases on Hardware-in-the-Loop (HiL) test benches.
- Performing system tests, evaluating test results, and documenting findings.
- Analyzing anomalies and identifying root causes of detected issues.
- Collaborating closely with developers and test managers.

### What you bring along:

- A degree in Electrical Engineering, Computer Science, Business Informatics, or a comparable qualification.
- Solid knowledge of automotive bus systems (e.g., CAN, LIN, FlexRay).
- Hands-on experience with measurement and diagnostic tools (e.g., CANoe, CANape, ODIS).
- Experience with test automation tools such as EXAM and/or ecu.test...
- Structured, analytical mindset and strong problem-solving skills.
- Good English language skills.

With more than 50 facilities in Europe, the Bertrandt Group has been providing development solutions for the international automotive and aircraft industry since 1974. Every day, more than 15 000 employees guarantee extensive know-how and support our client (Manufacturer and OEM) with management, design and industrialization solutions.

Bertrandt Technologie Morocco offers you opportunities in the automotive sector (body in white, interior and exterior, layout, powertrain, and electronics). Moreover, we are also present in interdisciplinary field such as project management, quality management, supply chain/industrialization and validations.
