

## Data Scientist Intern (m/w)

**Workplace:** 11000, Rabat

**Apply online!**

### What to expect:

- Conceptualization and implementation of data science projects
- Integration of new data sources and implementation of data preprocessing
- Conducting statistical data analyses and data visualizations
- Development of algorithms, for example, for pattern/anomaly detection
- Utilizing LLMs for innovative solution creation for various problems, including the application of prompt engineering, output validation, and evaluation of results
- Designing and developing software solutions to apply these tasks
- Optimization, automation, and further development of existing applications
- Advising internal and external colleagues in customer projects
- Collaboration in interdisciplinary teams consisting of, for example, data scientists & engineers, system engineers, project managers

### What you bring along:

- Studies in data science, computer science, mathematics, natural sciences, or comparable fields of study or relevant professional training
- Excellent knowledge of Python and agile development of software and algorithms
- Good knowledge in the field of machine learning (i.e. scikit-learn, Tensorflow, PyTorch) is required
- Good knowledge of statistics is an advantage
- Experience with LLMs and prompt engineering is an advantage
- Proficiency in cloud and edge technologies, databases, and data processing methods
- Strong communication and persuasion skills at both the operational level and in coordination with management
- High proactivity and self-responsibility
- Fluent English skills

With more than 50 facilities in Europe, the Bertrandt Group has been providing development solutions for the international automotive and aircraft industry since 1974. Every day, more than 13 000 employees guarantee extensive know - how and support our client (Manufacturer and OEM) with management, design and industrialization solutions.

Bertrandt Technologie Morocco offers you opportunities in the automotive sector (body in white, interior and exterior, layout, powertrain, and electronics). Moreover, we are also present in interdisciplinary field such as project management, quality management, supply chain/industrialization and validations.

#### What we offer:

Responsible Tasks

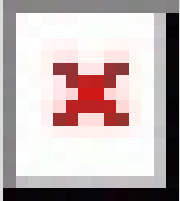

Mobile work

Networking  
throughout the  
group

Employee events
