## AI Solution Developer

**Workplace:** 550107, Sibiu

**Apply online!**

### What to expect:

- Identifying and implementing AI use cases in collaboration with cross-functional teams.
- Designing prototypes and production-ready solutions, including LLM-based applications with prompt engineering and performance tuning.
- Preparing and managing complex data sources for AI models.
- Deploying, operating, and optimizing AI solutions in cloud environments.
- Coaching teams and conducting AI training sessions to foster adoption.
- Advising management on AI strategies for operations and administration.
- Staying ahead of emerging technologies through research and continuous learning.

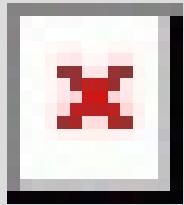

### What you bring along:

- Education: Degree in Computer Science, Informatics, or related field.
- Programming Skills: Proficiency in Python and/or TypeScript, with knowledge of Clean Code principles and CI/CD
- Cloud Experience: Proven experience in cloud environments, preferably Azure.
- AI Expertise: Solid understanding of AI domains including mathematical foundations (especially LLMs and Generative AI concepts)
- Soft Skills: Excellent communication skills, strong problem-solving ability, teamwork spirit, and a proactive mindset.

**The Bertrandt Group** has been providing solutions for research and development for the international automotive industry for over 40 years. From the incipient phase to the production phase, our company implements the ideas in services, accompanies and supports the peripheral fields of the companies in the construction industry of machines and installations, in the electrotechnical industry, energy as well as the medical industry.

As one of the top employers, we are also one of the preferred addresses for applicants. Providing careers for motivated engineers who are prepared to give their best.
