

Component Responsible Engineer

Workplace: 10000, Rabat

[Apply online!](#)

What to expect:

- Define and maintain comprehensive technical knowledge of all vehicle antenna systems and the Online Connectivity Unit (OCU).
- Review the Technical Description Document of the product to ensure compliance with antenna and OCU requirements.
- Collaborate with other teams/areas regarding antenna systems and OCU needed activities (e.g. packaging/positioning, wiring, component documentation..)
- Define and align the testing plan (at component and vehicle level) with the supplier.
- Coordinate needed resources among other client departments.
- Manage and track component modifications and engineering changes : P, B, K & BMG
- Ensure that the vehicle antenna system complies with legal and regulatory requirements (e.g. regarding radiofrequency emissions and standards).

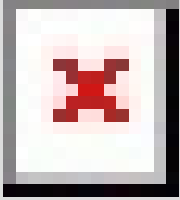

What you bring along:

- Degree in Electronics or Telecommunications engineer.
- Solid knowledge of antenna technologies (AM/FM, GNSS, LTE, 5G, etc.)
- Experience in the development of Electronic Control Units (ECUs).
- Confident in reading and understanding electronic schematics
- Comfortable planning, scheduling and leading project meetings.
- Strong organizational skills and tracking of the tasks. Experience in project management is a plus.
- Professional maturity and proactive, responsible.
- Technical curiosity.
- Proficient in Microsoft Office 365 (concretely, Excel, PowerPoint, Teams and Outlook).
- Minimum English Level: B2.
- German is a plus.
- Experience: 3 - 4 years
- N.B: Your CVs must be in English
