

SAP 4HANA developer/ SW engineer

Workplace: 1000, Rabat

[Apply online!](#)

What to expect:

- Build and optimize processes and solutions within the SAP S/4HANA environment
- Develop advanced ABAP on HANA solutions, leveraging CDS, RAP, and modern extensibility patterns
- Design and expose OData services (GW/SEGW or RAP)
- Build or extend Fiori/UI5 applications following UX and security best practices
- Develop modern services using RAP, including draft handling, determinations, validations, and authorizations
- Support data integration and data migration activities.

What you bring along:

- Deep ABAP on HANA expertise
- Strong experience with CDS, RAP, OData, and Fiori/UI5
- Knowledge of SAP Business Technology Platform (BTP) and modern extensibility patterns
- Understanding of secure and upgrade-safe development practices
- English communication skills.

With more than 50 facilities in Europe, the Bertrandt Group has been providing development solutions for the international automotive and aircraft industry since 1974. Every day, more than 15 000 employees guarantee extensive know-how and support our client (Manufacturer and OEM) with management, design and industrialization solutions.

Bertrandt Technologie Morocco offers you opportunities in the automotive sector (body in white, interior and exterior, layout, powertrain, and electronics). Moreover, we are also present in interdisciplinary fields such as project management, quality management, supply chain/industrialization and validations.
