

# Manufacturing Engineer

**Workplace:** 418 32, Gothenburg

[Apply online!](#)

## What to expect:

- Lead industrialization projects, including planning, design, execution, monitoring, and closure.
- Coordinate equipment installation, commissioning, issue-list follow-up, and handover to end users.
- Secure all manufacturing and industrialization deliveries to car programs and report status to Program Managers and Gateways/Milestones.
- Manage stakeholders, suppliers, and line builders; collaborate globally to align and improve production solutions.
- Perform root-cause analysis, propose solutions, escalate when needed, and remove manufacturing obstacles.
- Develop and validate lean, robust, ergonomic products and process solutions; ensure process flow and alignment with Vision layout.
- Provide product and process feedback to R&D to meet targets for quality, assembly time, cost, flexibility, environment, and changeover.
- Support sourcing processes and equipment projects; contribute to lessons learned, best-practice sharing, and team coaching.

## What you bring along:

- Manufacturing engineering experience leading installation and commissioning projects.
- Strong knowledge of production processes, product development, and automated assembly.
- Competence in Lean Production, Lean Process Design, 6 Sigma, DMAIC, and geometric assurance.
- Experience with electric drive unit processes (rotor, stator, inverter) and assembly.
- Understanding of Teamcenter and concept/process development at station/line level.
- Strong communication skills; fluent in English (and Swedish or Slovak where required).
- Ability to work in multinational teams; proactive, analytical, and solution-oriented mindset.
- Strong troubleshooting ability, curiosity for new technologies, and solid engineering data reporting skills.
- Bachelor's degree in production, engineering, or a related field.

With more than 54 locations throughout Europe, the Bertrandt Group has been providing engineering and development solutions for the international automotive and aerospace industries since 1974. More than 12,000 employees use their know-how and innovative strength every day to support our customers – leading manufacturers and OEMs – with integrated solutions in management, design, and industrialization.

Bertrandt is now expanding into Sweden, establishing a strong and future-oriented presence in Gothenburg.

Our activities cover a spectrum of expertise from electrical, electronics, and software development to design engineering, project management, quality, industrialization, and validation, all driven by innovation and a passion for technology.

**Gothenburg location and candidates must hold valid work authorization in Sweden.**

### What we offer:

Flexible working  
hours

Training programs

Employee events

Team-oriented  
work
