

## DevOps / CI-CD Engineer – Automotive

**Workplace:** 418 32, Gothenburg

[Apply online!](#)

### What to expect:

- Develop and maintain CI/CD pipelines for automotive software projects
- Support build, integration, and deployment processes
- Automate workflows and improve development efficiency
- Collaborate with software and system teams
- Support release processes and infrastructure improvements
- Contribute to stable and scalable development environments

### What you bring along:

- Experience in DevOps or CI/CD environments
- Experience with CI/CD pipelines using Python
- Knowledge of automation, build systems, and tooling
- Understanding of software development processes
- Problem-solving and improvement-driven mindset
- Strong collaboration skills
- Fluent in English and Swedish
- Valid work permit for Sweden

### About the role

As a DevOps / CI-CD Engineer, you will support efficient and reliable software delivery by developing and maintaining automation, build, and deployment pipelines for automotive software projects.

This role is intended to cover a broad DevOps scope within automotive engineering environments.

With more than **54 locations throughout Europe**, the **Bertrandt Group** has been providing **engineering and development solutions** for the international **automotive and aerospace industries** since **1974**. More than **12,000 employees** use their **know-how** and **innovative strength** every day to support our customers – **leading manufacturers and OEMs** – with integrated solutions in **management, design, and industrialization**.

**Bertrandt is now expanding into Sweden**, establishing a **strong and future-oriented presence in Gothenburg**. Our activities cover a **spectrum of expertise** from **electrical, electronics, and software development** to **design engineering, project management, quality, industrialization, and validation**, all driven by **innovation** and a **passion for technology**.
