

Software Test Engineer - settore DIFESA

Sede di lavoro: 00155, Rome

Adesso candidatura online!

Responsabilità:

- Sviluppare ed eseguire test unitari e test di integrazione.
- Gestire il processo di Validazione e Verifica (V&V) dei sistemi software.
- Redigere procedure di test e documentazione di validazione.
- Preparare documentazione conforme agli standard MIL-498 (es. STP, STD, STR).

Requisiti:

- Ottima conoscenza delle metodologie di test unitari e test di integrazione.
- Solida conoscenza dei processi di Validazione e Verifica.
- Familiarità con lo standard MIL-498 e relativa documentazione.
- Preferibilmente conoscenza di almeno un linguaggio di programmazione: C++, Java o Python.

As a leading technology partner in the automotive, aerospace and mechanical engineering sectors, Bertrandt focuses on the trends of digitalization, autonomous systems, connectivity and electric mobility. With our almost 50 years of cross-sector experience, our global presence and our expert organization, we help to shape the future and implement innovative projects for our customers. Our strengths are our many years of experience in transformation processes, our ability to see projects from a holistic perspective – from the initial idea to start of production and after sales – and the speed at which we can scale up projects. Around 13.000 employees at more than 50 sites worldwide are committed to addressing the challenges faced by our customers.

Bertrandt guarantees (in accordance with Legislative Decree 198/2006, Legislative Decree 215/2003 and Legislative Decree 216/2003) equal access to employment for all candidates and are committed to fostering respect for diversity and inclusion in the workplace.
