

Senior Data Scientist (m/w/d)

Arbeitsort: 55218, Ingelheim am Rhein

Jetzt online bewerben!

Was Sie erwartet:

As a **Senior Data Scientist (m/f/d)**, you will play a key role in developing and implementing innovative, data-driven solutions. Your main responsibilities include:

- **Leading the delivery** of successful, business- and customer-focused data analytics solutions.
- Applying **high-quality and cutting-edge analytical approaches** to solve complex problems and drive smart decision-making processes. You will leverage your strong expertise in data science to continuously optimize the data analytics framework.
- Managing and overseeing **data science activities** within data management operations, including monitoring data science models in production and conducting continuous data reviews.

Was Sie mitbringen:

- **Educational Background:** A Master's or PhD degree in a quantitative discipline such as Mathematics, Computer Science, or Bioinformatics.
- **Programming Skills:** At least 6 years of experience in relevant programming languages such as R and Python.
- **Statistical Expertise:** Advanced understanding of modern statistical concepts related to Data Science.
- **Analytical Skills:** Proven ability to analyze complex data problems and develop innovative solutions that create business value.
- **Results Orientation:** Demonstrated experience in successfully delivering data-driven projects.
- **Communication Skills:** Ability to clearly and effectively communicate technical results to diverse audiences.

Only CVs submitted in English will be considered for this position. Excellent English skills are required.

Also this position can be performed 100% remotely.

Schwerbehinderte Menschen beziehungsweise gleichgestellte Menschen im Sinne des SGB IX werden bei gleicher Eignung bevorzugt eingestellt.
