

## Error analyst

**Workplace:** 418 32, Gothenburg

[Apply online!](#)

### What to expect:

- Identify, trace, and resolve faults in logging solutions for sensor data collection.
- Collaborate with teams to design and build robust logging platforms for SVA (Safe Vehicle Automation).
- Ensure accurate and reliable data collection across multiple sensor technologies.
- Work hands-on with technical systems, applying persistence and creativity to solve complex issues.
- Contribute to continuous improvement by analyzing root causes and implementing solutions

### What you bring along:

- Bachelor Degree or Master Degree in a relevant field (e.g., Computer Science, Electrical Engineering).
- Understanding of **networks and time synchronization**.
- Natural interest in technology and technical solutions.
- Strong persistence and determination as a **stubborn fault tracer**.
- Ability to learn quickly and adapt to new challenges.
- Positive, proactive **can-do attitude**.
- Fluent in English, both written and spoken.

With more than 54 locations throughout Europe, the Bertrand Group has been providing engineering and development solutions for the international automotive and aerospace industries since 1974. More than 12,000 employees use their know-how and innovative strength every day to support our customers – leading manufacturers and OEMs – with integrated solutions in management, design, and industrialization.

Bertrandt is now expanding into Sweden, establishing a strong and future-oriented presence in Gothenburg.

Our activities cover a spectrum of expertise from electrical, electronics, and software development to design engineering, project management, quality, industrialization, and validation, all driven by innovation and a passion for technology.

**Gothenburg location and candidates must hold valid work authorization in Sweden.**
