

## Lead Engineer ADAS/AD (m/f/d)

Workplace: , Sibiu

Apply online!

### What to expect:

- **Planning and Execution of Global Delivery**  
**Projects:** Coordinate and oversee projects between Germany and our nearshore locations.
- **Team Building and Competence Development:** Build a high-performing team and develop competencies in Automotive, ADAS/AD, and Systems Engineering.
- **Sub-Project Management and QTC**  
**Responsibility:** Manage sub-projects with responsibility on quality, timelines, and costs.
- **Interface Management:** Ensure effective communication and collaboration between departments in Germany and nearshore locations.
- **Internal Improvement Measures:** Plan and implement measures to continuously improve our Global Delivery objectives.
- **Project Workshops:** Organize, prepare, conduct, and follow up on project workshops.
- **Reporting:** Create project status and maturity reports, as well as decision templates for top management.
- **On-Site Deployment:** Primarily work on-site at our nearshore locations.

### We Offer:

### What you bring along:

- **Expertise:** In-depth knowledge of vehicle development processes (especially V-Model) and the automotive industry, ideally in the ADAS/AD field.
- **Experience:** At least 3 years of experience leading development projects in the automotive industry, with experience in project management and international team building.
- **Hands-On Mentality:** Practical experience in project implementation and a proactive approach.
- **Project Management:** Knowledge of financial fundamentals of project management and experience with project management tools, as well as creating status reports and project plans.
- **Intercultural Competence:** Experience working with international teams and strong intercultural skills.
- **Communication Skills:** Excellent organizational and communication skills, particularly in effectively coordinating and conducting project meetings.
- **Language Skills:** Fluent in Romania, good in English, German is a plus.

- An exciting and challenging role in an international environment.
- The opportunity to lead and shape innovative projects in the automotive industry.
- A dynamic and motivated team.
- Attractive compensation and development opportunities, with employment through our branch in Romania.

Severely disabled persons or persons of equivalent status within the meaning of SGB IX will be given preference in hiring if they are equally qualified.
